MetronHR

Service technician timesheet

Name: _____ Month: _____ Employee no.: _____

One row per entry. Enter entries ending after midnight with the date on which they started. The Excel version checks maximum hours, breaks and rest automatically.

Date	Customer / unit	Type	Customer signature	Start	End	Break	Hours

Employee signature: _____ Employer signature: _____

Travel time: for employees without a fixed or habitual place of work, the drives from home to the first customer and from the last customer back home are working time (CJEU, 10 September 2015, C-266/14). Pay can be governed separately by the contract.

Emergency service: with on-call duty, in principle only the call-out is working time; with a very short response time, all of the standby can be working time (CJEU, 9 March 2021, C-344/19 and C-580/19). According to the prevailing view, every call-out interrupts the rest period. Service and maintenance have no shortening to ten hours under section 5(2) ArbZG.
